## Software Engineer

Miami, Fl • jpatino360@gmail.com • (786) 608-8549

### **EDUCATION**

**2022 - Present**

Florida International University - Miami, Fl - Bachelor of Art - Computer Science

### **RELEVANT COURSEWORK**

Systems Programming - Intermediate Software Engineering - Data Structures - Intermediate Programming

### **TECHNICAL SKILLS**

Java - C - Github - PostgreSQL

### **PROFESSIONAL EXPERIENCE**

**Publix Supermarkets, Produce Clerk**

**Miami, Fl 2020-Present**

- Collaborated with team members to maintain a clean and organized produce department, provided excellent customer service by assisting customers with product selection, answering inquiries, and addressing concerns.
- Participated in training programs to stay updated on product knowledge and store policies.

### **PROJECTS**

#### • **ONLINE BOOKSTORE MANAGEMENT SYSTEM**

**June 2023**

- As part of my coursework in the software Engineering class, I collaborated with a team of developers to design and implement an Online Bookstore Management System. The project aimed to create a comprehensive e-commerce platform for book enthusiasts, allowing users to browse, search for, and purchase books online.
- Contributed to the system's architecture and database design, ensuring efficient data storage and retrieval.
- Worked on the shopping cart feature, allowing users to add and remove items, view order summaries and proceed to checkout
- Collaborated with team members to resolve bugs, optimize code, and ensure smooth project execution.
